## PERSONAL INFORMATION

### Personal Profile

Results-oriented, committed and ambitious individual with a comprehensive knowledge and understanding of software and hardware engineering, data management and information technology. Passionate about data analysis and computer science, with strong focus on delivering solutions with minimal supervision.

Areas of strength include:

- ❖ Full Stack Development: Proficient in Python(Flask,Django) for backend development and Javascript(React, Vue.js) for frontend development.
- ❖ Payment Integrations – Paypal and Mpesa using the languages listed above.
- ❖ Database Management: Skilled in MySQL and PostgreSQL.
- ❖ Styling and Design: Tailwind CSS and CSS
- ❖ Conversant with Windows, Linux
- ❖ Data Analysis: Proficient in visualization using PowerBi and Tableau, advanced Excel and MySQL
- ❖ Communication and Leadership: Excellent communication and leadership abilities
- ❖ Problem solving skill: Strong analytical and problem-solving skills

### Career Objectives

To leverage my skills and expertise in full stack development to add value to an organization, help achieve corporate goals, and work in a challenging yet flexible environment that exceeds organizational and client expectations while embracing modern technology and continuous learning.
